ROBERT A. WINN EXCELLENCE IN CLINICAL TRIALS AWARD PROGRAM
Established by the Bristol Myers Squibb Foundation

Clinical Investigator Pathway Program (Winn CIPP)

Seven transformative weeks that inspire future physicians to strengthen clinical trials and improve care for all.

Program Goal

This **seven-week summer externship** immerses medical students in community-based research within underserved areas, preparing them to become **community-focused clinical trial researchers and advancing trial representation.**

- **Week 1: June 14 - June 17, 2027 (Virtual)**
- **Weeks 2-7: June 21 - July 31, 2027 (In-person)**

Eligibility

Winn CIPP is open to **active 1st–3rd year medical students** in MD, MD/PhD, DO, or DO/PhD programs at accredited U.S. medical schools, including Puerto Rico. Applicants must be U.S. citizens, permanent residents, or have DACA approval.

We encourage applicants whose experiences — including educational or personal challenges, first-generation backgrounds, or connections to our mission — have shaped their commitment to healthcare, community engagement, and clinical research. These experiences are not required; all eligible applicants are evaluated using the same selection criteria.

Our Funders

Bristol Myers Squibb™ Foundation

Genentech
A Member of the Roche Group

AstraZeneca

$7,200
SUMMER STIPEND

Intended to cover travel, living, and lodging expenses.

WINN CIPP PROGRAM COMPONENTS

Winn CIPP students will discover the basics of clinical trials and work in community-based clinical research organizations, gaining hands-on knowledge and experience through three core competency areas:

Clinical Research
Develop short-term, team-based projects with guidance from site supervisors

Community Engagement
Design and implement collaborative intervention projects like needs assessments or educational programs

Leadership Development
Learn about clinical research career paths and build community-oriented leadership skills through peer learning and mentorship from site leaders

Learn more about our transformative programs and how we are producing Better Science For All.
